Data and Graphs — Read, Complete, Solve

Sheet A

Read the data. Complete the second graph or table, then solve the problems.

Name: _____ Date: _____

1) Hana asked some students to name their favorite lunch. The frequency table shows the results.

a. Use the frequency table to complete the pictograph.

Favorite Lunch

Lunch	Number of Students
Tacos	16
Pasta	8
Soup	5
Salad	9

Favorite Lunch

Tacos	★★★★★★★★
Pasta	
Soup	★★½
Salad	

Key: ★ **= 2 students**

b. How many students chose pasta or soup? **Answer:** _____

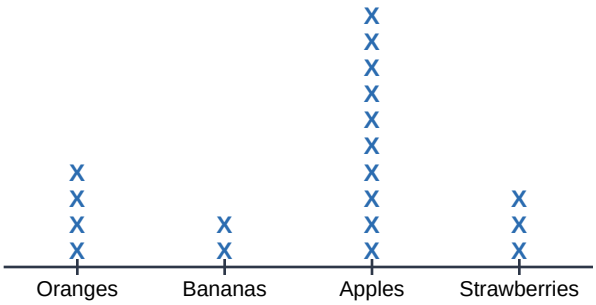
c. How many more students chose pasta or salad than chose tacos? **Answer:** _____

2) Malik asked some students to name their favorite fruit. The dot plot shows the results.

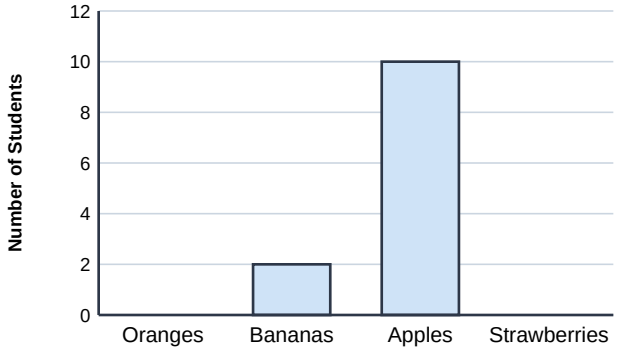
a. Use the dot plot to complete the bar graph.

Favorite Fruit

Each X = 1 student



Favorite Fruit



b. How many students chose apples or bananas? **Answer:** _____

c. How many more students chose oranges or apples than chose bananas? **Answer:** _____

3) Theo asked some students to name their favorite sport. The pictograph shows the results.

a. Use the pictograph to complete the frequency table.

Favorite Sport

Tennis	★★
Basketball	★★★
Soccer	★★★★★★★★
Football	★

Key: ★ **= 5 students**

Favorite Sport

Sport	Number of Students
Tennis	10
Basketball	
Soccer	40
Football	

b. How many more students chose soccer than chose basketball? **Answer:** _____

c. How many students did NOT choose basketball? **Answer:** _____

4) The list shows how many students are in each class at Malik's school.

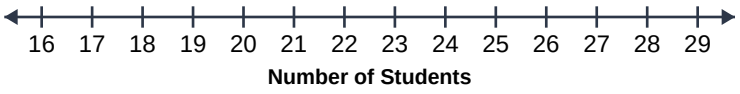
a. Use the list to complete the dot plot. Draw one X for each number in the list.

Students in Each Class

25, 29, 25, 21, 18, 28, 25, 17, 21, 29, 16, 28, 20, 25, 20, 18, 23, 26, 27, 28

Students in Each Class

Each X = 1 class



b. How many classes have 17 or 23 students? **Answer:** _____

c. How many classes have 28 or more students? **Answer:** _____

Answer Key — Sheet A

1) a. Pictograph — Pasta: 8, Salad: 9
b. 13 (8 + 5 = 13)
c. 1 (8 + 9 = 17, 17 – 16 = 1)

2) a. Bar graph — Oranges: 4, Strawberries: 3
b. 12 (10 + 2 = 12)
c. 12 (4 + 10 = 14, 14 – 2 = 12)

3) a. Frequency table — Basketball: 15, Football: 5
b. 25 (40 – 15 = 25)
c. 55 (10 + 40 + 5 = 55)

4) a. Dot plot — 1 at 16, 1 at 17, 2 at 18, 2 at 20, 2 at 21, 1 at 23, 4 at 25, 1 at 26, 1 at 27, 3 at 28, 2 at 29
b. 2 (1 + 1 = 2)
c. 5 (3 + 2 = 5)
