Data and Graphs — Read, Complete, Solve

Sheet A

Read the data. Complete the second graph or table, then solve the problems.

Name: _____ Date: _____

1) Maria asked some students how many minutes it takes them to get to school. The list shows their answers.

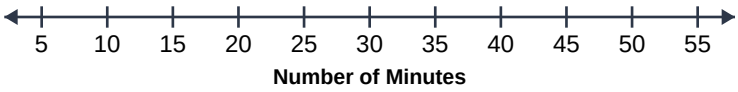
a. Use the list to complete the dot plot. Draw one X for each number in the list.

Minutes to Get to School

20, 20, 30, 40, 30, 50, 20, 15, 15, 30, 20, 15, 25, 15, 10, 40, 40, 5, 30, 15, 35, 15, 15, 10, 50

Minutes to Get to School

Each X = 1 student



Number of Minutes

b. How many more students take 15 minutes to get to school than take 35 minutes to get to school? **Answer:** _____

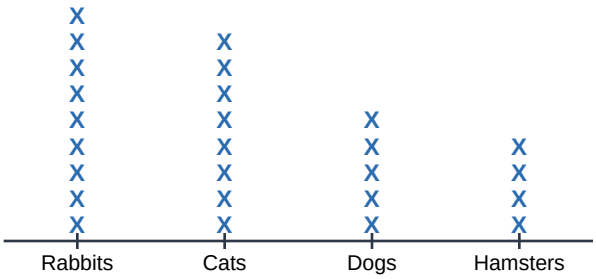
c. How many more students take 10 or 15 minutes to get to school than take 50 minutes to get to school? **Answer:** _____

2) Priya asked some students to name their favorite pet. The dot plot shows the results.

a. Use the dot plot to complete the pictograph.

Favorite Pet

Each X = 1 student



Favorite Pet

Rabbits	
Cats	★★★★
Dogs	★★½
Hamsters	

Key: ★ = 2 students

b. How many more students chose dogs than chose hamsters? **Answer:** _____

c. How many more students chose cats or hamsters than chose rabbits? **Answer:** _____

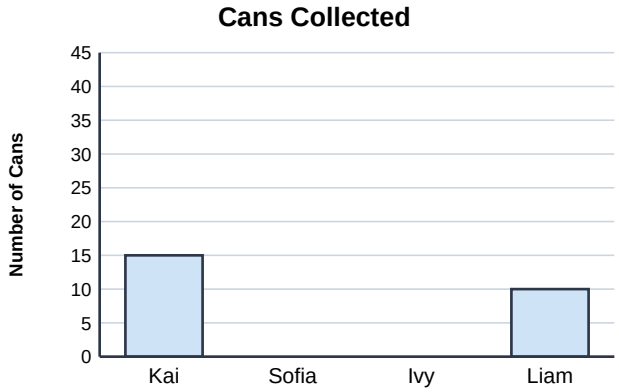
3) Four friends collected cans for a food drive. The pictograph shows how many cans each friend collected.

a. Use the pictograph to complete the bar graph.

Cans Collected

Kai	★ ★ ★
Sofia	★
Ivy	★ ★ ★ ★ ★ ★ ★ ★
Liam	★ ★

Key: ★ **= 5 cans**

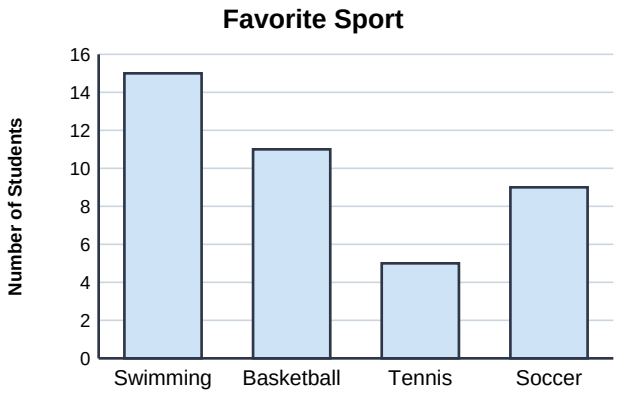


b. How many cans did Liam and Sofia collect in all? **Answer:** _____

c. How many cans were collected in all? **Answer:** _____

4) Zoe asked some students to name their favorite sport. The bar graph shows the results.

a. Use the bar graph to complete the frequency table.



Favorite Sport

Sport	Number of Students
Swimming	
Basketball	
Tennis	5
Soccer	9

b. How many fewer students chose soccer than chose swimming? **Answer:** _____

c. How many more students chose swimming or tennis than chose soccer? **Answer:** _____

Answer Key — Sheet A

1) a. Dot plot — 1 at 5, 2 at 10, 7 at 15, 4 at 20, 1 at 25, 4 at 30, 1 at 35, 3 at 40, 2 at 50
b. 6 (7 – 1 = 6)
c. 7 (2 + 7 = 9, 9 – 2 = 7)

2) a. Pictograph — Rabbits: 9, Hamsters: 4
b. 1 (5 – 4 = 1)
c. 3 (8 + 4 = 12, 12 – 9 = 3)

3) a. Bar graph — Sofia: 5, Ivy: 40
b. 15 (10 + 5 = 15)
c. 70 (15 + 5 + 40 + 10 = 70)

4) a. Frequency table — Swimming: 15, Basketball: 11
b. 6 (15 – 9 = 6)
c. 11 (15 + 5 = 20, 20 – 9 = 11)
