Word Problems — Number Lines

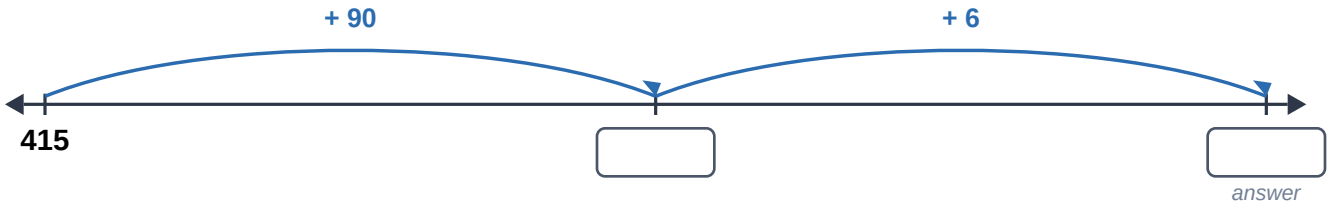
Day 3 · Sheet A

Use the number line. Start at the first number and jump by hundreds, tens, and ones.

Name: _____ Date: _____

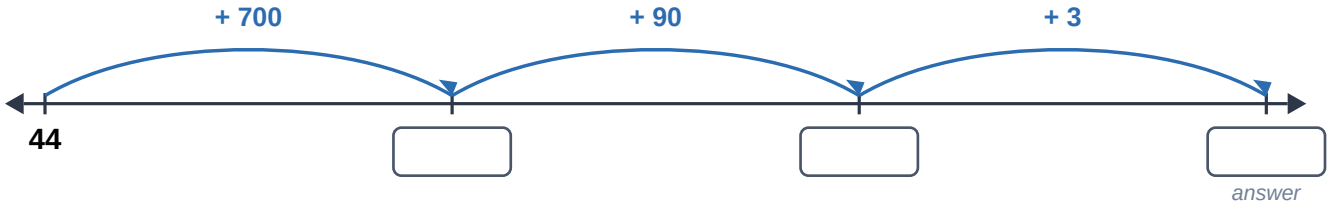
1) Malik read 415 pages on Monday and 96 pages on Tuesday. How many pages in all?

Jump forward to add. Fill in each box; the last box is your answer.



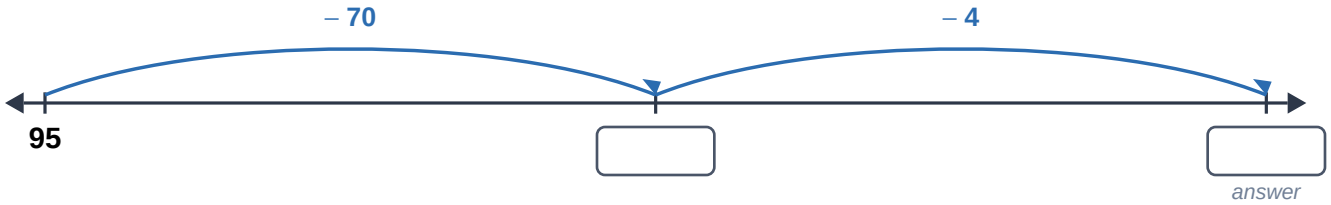
2) Chen collected 44 seashells. Liam collected 793 seashells. How many seashells did they collect altogether?

Jump forward to add. Fill in each box; the last box is your answer.



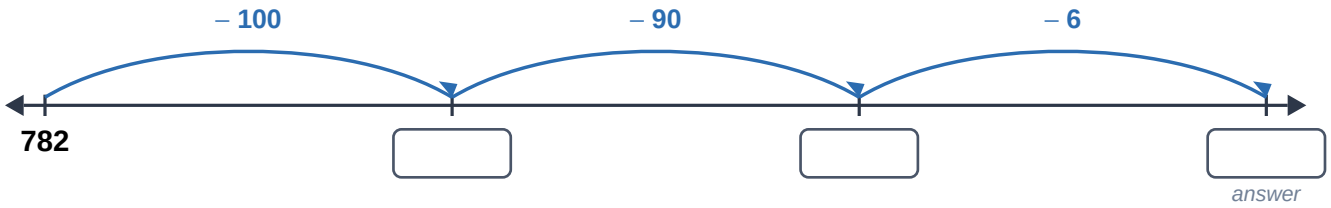
3) Hana needs 95 stickers in all and has 74 so far. How many more stickers are needed?

Jump backward to subtract. Fill in each box; the last box is your answer.



4) There were 782 stickers on the shelf. 196 of them were sold. How many stickers are left?

Jump backward to subtract. Fill in each box; the last box is your answer.



Answer Key — Day 3 · Sheet A

1) 415 + 96 = 511
2) 44 + 793 = 837
3) 95 – 74 = 21
4) 782 – 196 = 586
