Word Problems — Strip Diagrams

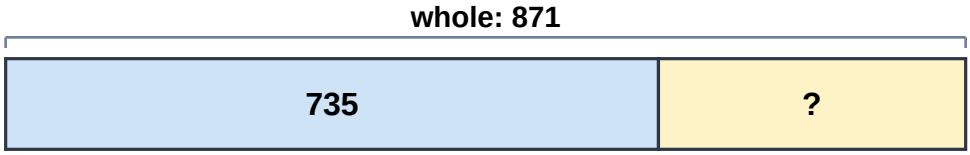
Day 2 · Sheet A

Use the strip diagram (bar model): two parts make a whole. Shaded box = what to find.

Name: _____ Date: _____

1) Zoe had 871 blocks and used 735. How many blocks are left?

The whole and one part are shown. Subtract to find the missing part.



Answer: ☐

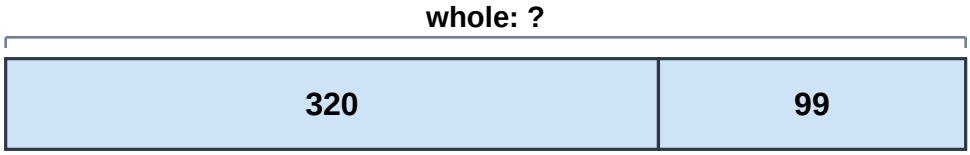
2) Lucia read 28 pages on Monday and 680 pages on Tuesday. How many pages in all?

Both parts are shown. Add the parts to find the whole.

Answer: ☐

3) There were 320 acorns in the bin. Jamal put in 99 more. How many acorns are in the bin now?

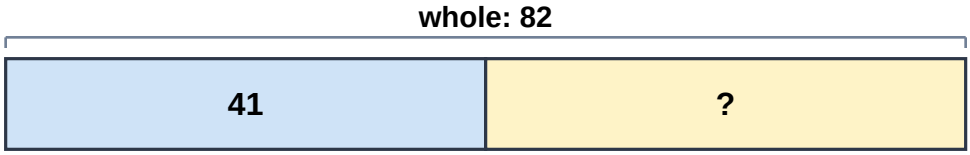
Both parts are shown. Add the parts to find the whole.



Answer: ☐

4) Maria had 82 buttons and used 41. How many buttons are left?

The whole and one part are shown. Subtract to find the missing part.



Answer: ☐
